

1st Chair
1st Chair Round Rider Trio HT430B

The Round Rider features a traditional and gently rounded cushion shape that is very popular due to its versatility. The Round Rider is available with a durable PVC seat (HT430B), or a newly designed cloth top seat (HT430BC)

Features

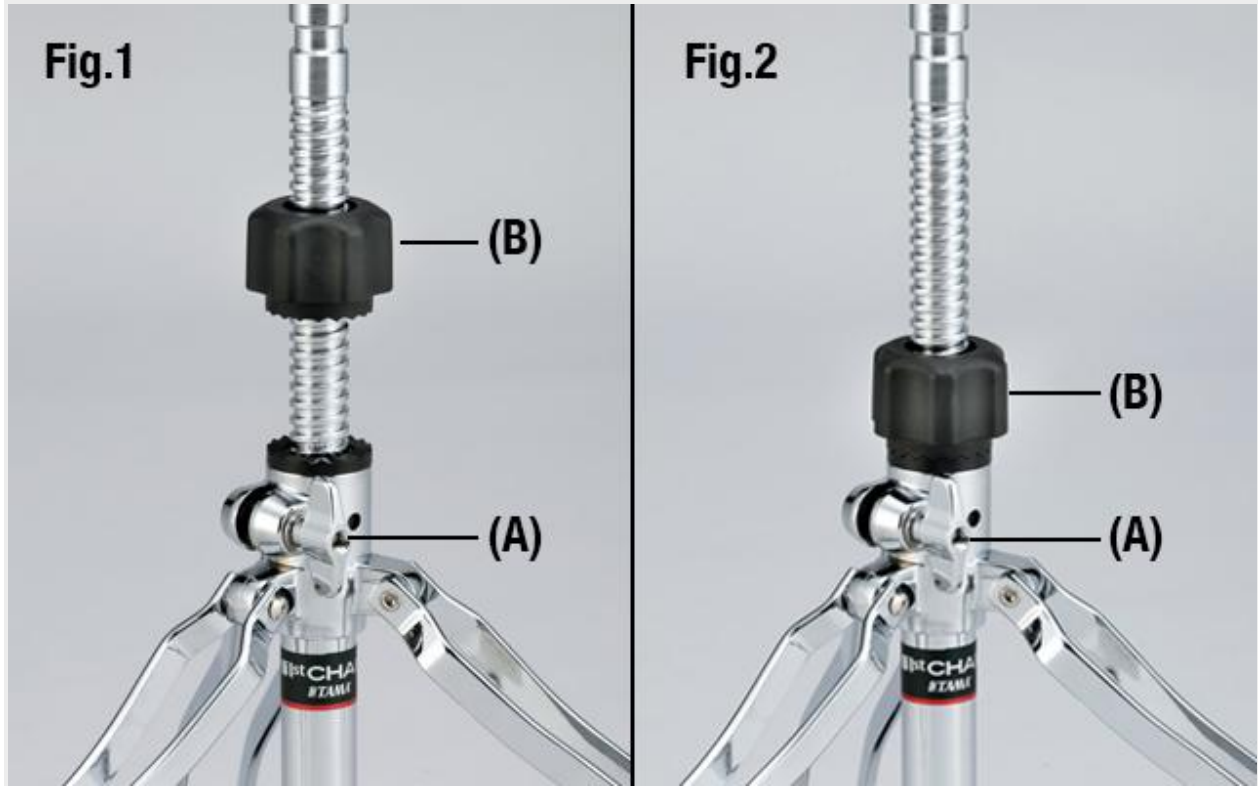

Round Rider Seat

Lower profile PVC seams facilitate smooth leg motion, and a dimple on the bottom of the seat cushion provides soft but solid support that allows drummers to play at their best.

Seat Link

The new "Seat Link" casting securely grips the entire circumference of the throne's upper rod with a nylon bushing.

1st Chair Height Adjustment

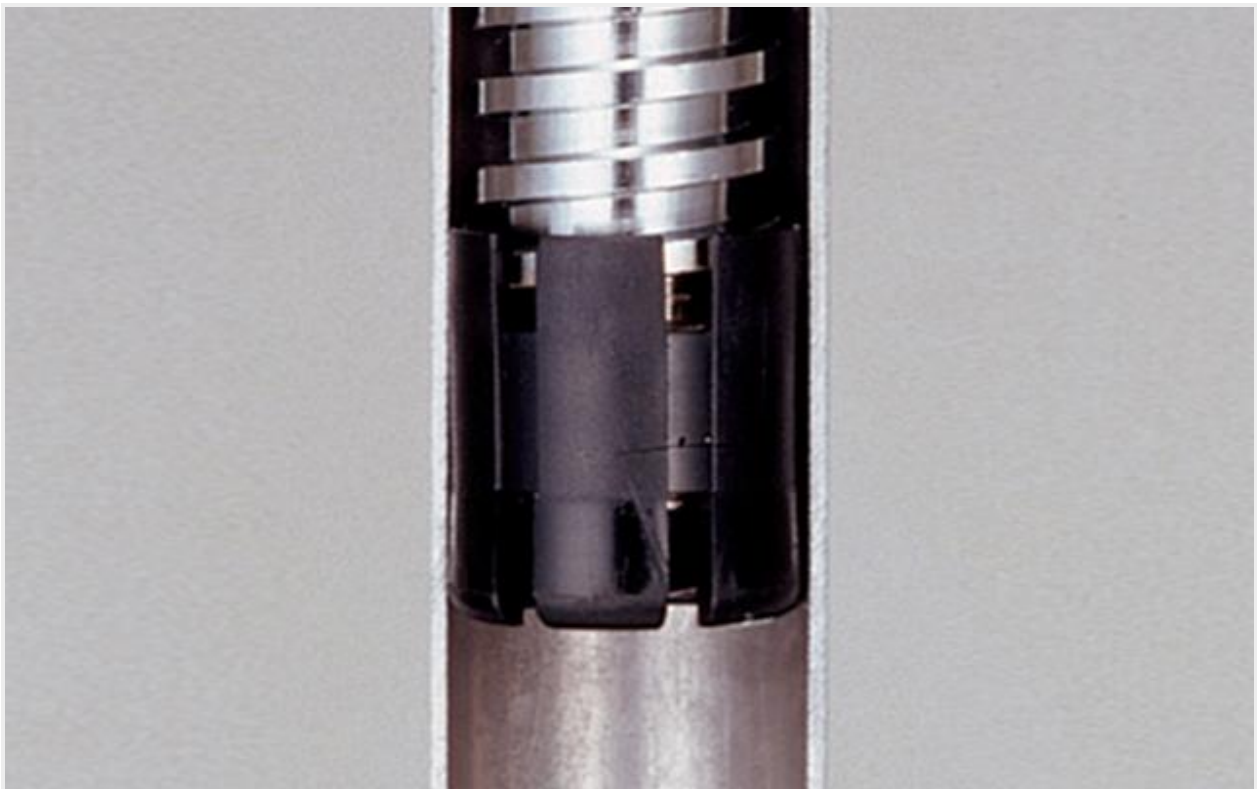

1st Chair thrones offer the best of both worlds-the exact height adjustment of threaded rod thrones with the fast adjustment of T-bolted systems:

1. Loosen the bolt (A) and raise the threaded rod to the approximate desired height (it's not necessary to get the exact height at this point).

2. Screw the Height lock (B) down to the top of the nylon bushing.

3. If a minor adjustment is necessary, simply turn the Height lock or rotate the seat.

4. Tighten the bolt (A) firmly.

Rocklok

TAMA's "Rocklok" features a specially designed Nylon Bushing at the bottom of the throne's threaded rod that prevents side-to-side motion within the base.

This special feature provides exceptional durability and stability.

SPEC

- **Details**
- •Weight: 5.3kg (11.1lbs)
- •Height Adjustment Range: 485mm - 655mm (19" - 25 3/4")
