MAC VIPER XIP

HIGH-OUTPUT, FULL-FEATURED OUTDOOR MOVING HEAD

SPEC SHEET

Introducing the Martin **MAC Viper XIP,** the next generation Viper class moving head that combines legendary Viper performance, Martin XIP smart weatherproofing technology, and an incredibly robust feature set. Drawing on best-in-class features that defined the iconic Viper lineup, including Viper Profile, Performance, Wash and Wash DX, MAC Viper XIP builds on Viper heritage, setting a new standard for all-in-one performance, innovation and reliability.

The combination of **MAC Viper XIP's** powerful lumen output and innovative patent-pending XIP water and dust ingress protection make it not only ideal for a wide range of year-round outdoor applications, but also ensures exceptionally low noise levels for indoor use, similar to the whisper-silent the Martin MAC Encore. Featuring Martin Professional's proprietary tailor-made light engine, the **MAC Viper XIP** unleashes an impressive 5-degree narrow, high-definition, and high-contrast beam, ensuring unprecedented lumen maintenance over the zoom range.

FEATURES

- Martin **XIP smart weatherproofing technology** for outdoor use without compromises
- Incredible **MAC Viper-class output** with impressive **low-noise levels** of the MAC Encore-class, perfect for noise-sensitive applications
- **Lumen maintenance** over the entire zoom range that exceeds industry standards
- **Exceptional Pan & Tilt speed,** CMY, and Zoom speed and responsiveness
- **Sharp framing** on the breakup wheel and improved dimming
- **Pure white illumination** sitting on the black body curve
- **Light recycling with gobos** for enhanced output
- **No dimming** on any features, ensuring consistent brightness
- **Light and heavy frost available** with a heavy frost available in the entire zoom range, providing versatility in lighting effects

The MAC Viper XIP is designed for temporary outdoor installation only.
Do not use the fixture for permanent outdoor lighting.
